SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the Federal Register-Environmental Documents entry for this document under "Regulations" (http://www.epa.gov/fedrgstr/).

EPA issued a notice, published in the **Federal Register** of January 22, 1997 (62 FR 3287; FRL–5582–4), which announced that W. Neurdorff GmbH KG, Postfach 1209, and der Muhle 3, D-31860 Emmerthal, Germany, had submitted an application to register the product NEU 1165M Slug and Snail Bait (EPA File Symbol 67702–G), containing the new active ingredient iron phosphate at 1.0 percent, an active ingredient not included in any previously registered product.

The application was approved on August 14, 1997, as NEU 1165M Slug and Snail Bait for domestic/noncommercial food use on vegetable gardens, fruits (including citrus), and berries; also for outdoor ornamentals, greenhouses, and lawns (EPA Registration Number 67702–3).

The Agency has considered all required data on risks associated with the proposed use of iron phosphate, and information on social, economic, and

environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of iron phosphate when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on this registration is contained in an EPA Pesticide Fact Sheet on iron phosphate.

A copy of this fact sheet, which provides a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805).
